As the great Leader of the revolution Comrade Kim Il Sung pointed out in his report, the nine years following the Fourth Congress of our Party has been a fruitful period replete with the revolutionary events of great historic significance in the onward movement of our people to socialism-communism.

The respected and beloved Leader Comrade Kim Il Sung pointed out in his report as follows:

"The greatest achievement made in socialist construction during the period under review is that our country has been converted into a socialist industrial state as a result of the splendid fulfilment of the historic task of socialist industrialization."

Under the leadership of the great Leader Comrade Kim Il Sung, our Party and people have fought on vigorously solving on their own all the problems arising in the building of modern industry as well as in the technical reconstruction of the national economy under the revolutionary banner of self-reliance, and creditably accomplished only in a matter of 14 years the difficult task for industrialization which took capitalist countries a full century or even a few centuries.

The socialist system of economic management has been set up in an all-round way thanks to the establishment of the Taean work system, the new system of guidance in agriculture and the system of unified and detailed planning put forward originally by the great Leader, and education, science, literature and art are daily efflorescing and developing.

As a result of the thoroughgoing implementation of the original line of the respected and beloved Leader Comrade Kim Il Sung on firmly strengthening the revolutionary ranks and consolidating the political and ideological unity of the entire people, the traits of fighting devotedly for the Party and the Leader, for the collective and society have been brought out to the full among our working people, and the whole society has been converted into a big, Red socialist family which is closely united politically and ideologically.

Our all-people, all-nation defence system has been further fortified rock-firm on the basis of the firm political and ideological unity of the masses of people rallied around the Leader and of a powerful independent national economy.

As the great Leader Comrade Kim Il Sung pointed out in his report, the most precious success made in the field of Party building is that the unitary ideological system of *Juche* has been established more firmly within the Party, and on this basis, the whole Party has achieved a complete unity and cohesion.

The unity of our Party today is the great unity of the Party with a well-established system of the single idea, the revolutionary idea of the Leader; the great unity of the whole Party which has been knitted as firm as a rock by one ideology and one will with the Leader as the sole centre. It is an indestructible, invincible unity which was safeguarded and consolidated in the sharp struggle against imperialism and reaction, bourgeois and revisionist elements and against opportunist trends of all hues, and is the most solid unity of vitality which weathered through the trials of history.

The attainment of the firm, invariable unity and cohesion of the whole Party based on the Marxist-Leninist idea of *Juche*, the great revolutionary idea of Comrade Kim Il Sung, the founder and Leader of our Party—this is the irreplaceable, priceless gain achieved by our Party and people.

The respected and beloved Leader Comrade Kim Il Sung said in his report as follows:

"The establishment of *Juche* in ideology is a great victory in the realm of the ideological revolution that has freed our people from the shackles of obsolete ideas detrimental to their consciousness of national independence."

Flunkeyism, national nihilism and dogmatism—the cursed ideological trends leading the nation to ruin—have been buried today in this land for good and the great *Juche* idea is shedding light upon the whole world, and our people are overflowing with the spirit of national independence and pride.

Today our Party has become a Party in which the trait of studying has been firmly established and it has grown into an invincible militant Party which, firmly equipped with the great Chongsan-ri spirit and Chongsan-ri method, carries on its work always relying on the masses and in unity with them; and our Party has become a seasoned General Staff of the revolution, whose ranks have been consolidated as never before organizationally and ideologically and whose leading function has been further enhanced.

In his report to the Party Congress, Comrade Kim Il Sung, the brilliant Leader of the revolution and outstanding Marxist-Leninist, has unfolded before the whole Party and the entire people a great fighting programme for consolidating and developing our socialist system and accelerating the complete victory of socialism on the basis of the victories and achievements scored in the revolution and construction in the past period.

Advancing the programmatic tasks of the Six-Year Plan, a new prospective plan in the field of socialist economic construction, the respected and beloved Leader Comrade Kim Il Sung said as follows:

"The basic task of the Six-Year Plan in the field of socialist economic construction is to further cement the material and technical foundations of socialism and free the working people from arduous labour in all fields of the national economy, by consolidating and carrying forward the successes gained in industrialization and advancing the technical revolution onto a new, higher plane."

They said with emphasis that the great *Juche* idea founded for the first time in history by the outstanding Leader of revolution Comrade Kim Il Sung fully accords with the fundamental principle of Marxism-Leninism, is most faithful to proletarian internationalism and most correctly reflects the lawful demand of the development of the international communist and working-class movements of our times and this idea is a great revolutionary idea which fully meets the urgent demand of the present times for the development of Marxism-Leninism to a new height in keeping with the new conditions of revolution and construction.

The Congress pointed to the fact that thanks to the overall victory of the great *Juche* idea of the respected and beloved Leader Comrade Kim Il Sung the line of independence, self-sustenance and self-defence has more thoroughly been implemented and a great victory won in socialist construction and the might of the country has grown as never before in politics, economy, national defence and all other fields during the period under review.

Noting that the greatest victory attained by our Party in socialist economic construction during the period under review is the conversion of our country from a socialist industrial-agricultural into a socialist industrial state, the speakers unanimously stated that this is an epochal event in the long history of our nation and in the onward movement towards socialism and communism and demonstrates the great vitality of the original *Juche* line of socialist industrialization put forth by Comrade Kim Il Sung, a brilliant Marxist-Leninist and the outstanding Leader of revolution.

The Congress directed deep attention to the fact that during the period under review our Party has thoroughly implemented the strategic line of carrying on economic construction and defence upbuilding in parallel to cope with the prevailing situation.

The speakers noted that thanks to the successful carrying through of our Party's military line set forth by Comrade Kim Il Sung, the outstanding Leader of revolution and military strategist-genius, the People's Army has been strengthened into an "a-match-for-a-hundred" cadre army, into a modernized, invincible revolutionary army fully prepared politically, ideologically and in military technique and boundlessly loyal to the Leader, and the entire people have been placed under arms and the whole country converted into an impregnable fortress.

Under the present situation in which the U.S. imperialists, making frantic preparations for the provocation of a new war, are ceaselessly committing adventurous military provocations against our country and are using the revived and rearmed Japanese militarists as their pawn for aggression, it is necessary to consolidate as firm as a rock the all-people defence system with the People's Army as the core through the more thorough implementation of the self-defensive military line of our Party and thereby increase still more the defence capabilities so as to counter the enemy's possible aggression, the speakers stressed.

The Congress stressed that a complete unity and cohesion of our Party has been achieved on the basis of the unitary ideological system of *Juche* and this has increased the militancy of our Party incomparably and pointed out that this is the greatest victory won in the upbuilding of our Party.

The speakers said in unison that through a protracted and principled struggle for establishing the unitary ideological system of the Party, our Party has firmly built up the Party's unitary ideological system in the whole Party and the whole Party has been strengthened and developed into an invincible fighting unit which has achieved the rock-firm unity on the basis of the great *Juche* idea of Comrade Kim Il Sung, the brilliant Leader of revolution, into a tried and tested General Staff of the revolution blazing the path of the revolution with originality along the line indicated by the Leader without the slightest vacillation in any storm and stress.

The Congress paid deep attention also to the question of revolutionizing and working-classizing the whole society by thoroughly carrying out the ideological revolution in the clear direction indicated by Comrade Kim Il Sung.

Saying that the theory and line on the revolutionization and working-classization of the whole society set forth by Comrade Kim Il Sung are an outstanding theory and line which indicated for the first time in history the way for rearing all the members of society into true Communists and revolutionaries with steadfast revolutionary world outlook, the speakers firmly resolved to build up our revolutionary ranks as firm as a rock by thoroughly implementing this line.

The speakers referred to the brilliant successes made in the struggle for implementing the independent and principled foreign policy of our Party put forth by the great Leader Comrade Kim Il Sung.

Stating that hundreds of millions of people and a large number of revolutionaries the world over infinitely adore, respect and trust Comrade Kim Il Sung, an outstanding Marxist-Leninist and the brilliant Leader of revolution, looking up to him, and see the road of their struggle in his great revolutionary ideas and gain courage and confidence from them, the speakers stressed in unison that our people who live and struggle with him as the Leader are the most glorious and happiest people in the world.

They said that during the period under review not only the historic victories have been won in the northern half of the country under the wise guidance of the great

The prospective Six-Year Plan for economic construction put forth by the Leader indicates the clear-cut way of building our industry, on the foundation of the successes gained in industrialization, into an independent modern industry whose inner-structure is further perfected, which develops fully relying on domestic raw materials and whose character of *Juche* is firmly ensured, and of giving full play to its might. It also indicates the correct way of making constant technical progress in all fields of the national economy to swiftly develop the productive forces of the country as a whole, free all the working people from arduous labour and evenly improve the standards of their life.

The respected and beloved Leader Comrade Kim Il Sung presented the three major tasks of the technical revolution for carrying out a new, grandiose plan of economic construction.

The respected and beloved Leader Comrade Kim Il Sung taught as follows:

"We should unfold an extensive technical innovation movement in industry and agriculture and all other branches of the national economy to narrow down the distinctions between heavy and light labour and between agricultural and industrial work to a considerable extent and free the women from the heavy burdens of household chores. These are precisely the three major tasks of the technical revolution we should fulfil in a few years ahead."

The three major tasks of the technical revolution set forth by the Leader represent the gigantic goal for further progress of technique in the national economy which has entered a new, higher stage. They are the worthwhile tasks designed to equip our industry and agriculture more firmly with the modern technique based on the latest achievements of science and extend the benefits of technical civilization even to home life on a fuller scale, and the glorious tasks to obliterate at the earliest date the distinctions between heavy and light labour, between agricultural and industrial labour, the left-over of the old society, and expedite our advance toward the complete victory of socialism further still.

In his report the great Leader Comrade Kim Il Sung gave a new, comprehensive exposition of the contents and original line of socialist cultural construction, and taught that in the building of socialist culture it is essential above all to wage a steadfast struggle against the imperialist cultural infiltration and the tendency of restorationism.

This line is the most correct one based on a scientific analysis of the aggressive policy of the imperialists who take cultural infiltration as an important means of neo-colonialism and of the anti-Marxist reactionary nature of restorationism and its harmfulness; it shows a truly Marxist-Leninist way of building a genuinely Party, popular and revolutionary socialist culture to fit in with the requirements of the time and class principles.

In his report the great Leader Comrade Kim Il Sung, on the basis of his profound analysis of the transition period and the lawfulness of the socialist and communist construction, systematized and formulated in an all-round way the scientific ideas and lines on the ideological revolution and the revolutionization and working-classization of the whole society, and put forward the historic tasks of further developing in depth the work of revolutionizing and working-classizing the whole society by pushing the ideological revolution ahead of other work.

In his report to the Fifth Party Congress Comrade Kim Il Sung pointed out:

"To realize the working-classization of the whole society while strenuously carrying on the revolutionization of all the working people by giving priority to the ideological revolution is a weighty task that must be fulfilled without fail in the period of transition from capitalism to socialism."

Comrade Kim Il Sung made a profound, comprehensive clarification on the scientific ways for the revolutionization and working-classization of the working people, the ways whose contents are the ideological education, the tempering through the revolutionary practice coupled with it, the revolutionary organizational life and the overall establishment of the socialist way of life.

In his report Comrade Kim Il Sung, the great Leader of the revolution and military strategist-genius, with his sharp analysis of and insight into the obtaining situation, laid down the militant task of stepping up the socialist construction to the greatest possible extent and of further reinforcing the defence capabilities of the country in parallel with it.

The great Leader Comrade Kim Il Sung set forth the line of stepping up war preparations by the efforts of the whole Party and the entire people in face of the ever-intensified aggression and war provocation manoeuvres of U.S. imperialism, with particular emphasis laid on placing the entire people under arms on a full scale, perfecting the art of war suited to the actual conditions of the country and speeding up the modernization of the People's Army on the basis of giving full play to its politico-ideological superiority and making firmer politico-military preparations to defeat any enemy superior in military technique.

In his report to the Party Congress Comrade Kim Il Sung, the great Leader of the 40 million Korean people, gave a profound overall elucidation of the strategic and tactical lines on the revolutionary movement in South Korea and made clear the invariable stand of our Party for national unification.

Reviewing and analyzing in an all-round way the historical course of the South Korean revolutionary movement which has made headway through the bitter trials, Comrade Kim Il Sung expounded the valuable revolutionary lesson that for victory of the revolution it is necessary to have the leadership of a revolutionary party and get ready to counter the counter-revolutionary violence of the enemy with revolutionary violence while actively unfolding the mass struggle.

In the report Comrade Kim Il Sung clarified in a scientific way the character and tasks of the South Korean revolution and indicated the strategic and tactical lines for its victory.

Touching on the need of strengthening the revolutionary forces before anything else for winning victory of the revolution in South Korea, Comrade Kim Il Sung advanced the line of solidly building up the main force of the revolution by cementing the Marxist-Leninist Party above all and rallying the workers and peasants, the basic masses of the revolution, close around it and, at the same time, of forming the anti-U.S. imperialist united front for national salvation which embraces all the patriotic socio-political forces and the masses of all strata and of further increasing and tempering the revolutionary forces through the active revolutionary struggle.

As reclarified by Comrade Kim Il Sung, the great Leader of the 40 million Korean people, in his report, the independent peaceful unification of the country is unthinkable so far as the U.S. imperialist aggression army and the puppets now in power are left alone in South Korea and it can be achieved only when the U.S. imperialist aggressors, the basic obstacle to Korea's unification, have been driven out of South Korea, their colonial rule has been liquidated, the military fascist dictatorship overthrown and the revolution has emerged victorious.

In his report the respected and beloved Leader Comrade Kim Il Sung, the great Marxist-Leninist of our age and one of the outstanding leaders of the international communist and working-class movements, summed up the achievements so far made by our Party in the domain of the international relations and made clear its unshakable stand and correct line of struggle which are aimed to strengthen the international solidarity of our revolution and develop the anti-imperialist, anti-U.S. imperialist struggle in Asia and the rest of the world in the present situation.

On the basis of his deep penetration into the Asian strategy of U.S. imperialism in particular, into the acute tension in this region created by its aggression, the influence of the tension on the general international situation and the position held and the role played by the revolutionary struggle of the Asian people in the world revolution, the great Leader Comrade Kim Il Sung advanced the original strategic line on consolidating their militant solidarity and intensifying and developing the anti-U.S. imperialist joint struggle by the revolutionary peoples in Asia.

In his report the respected and beloved Leader Comrade Kim Il Sung made a correct analysis of the Asian strategy of U.S. imperialism at present, the correlation between the United States and Japan and the Japanese militarists' aggressive machinations which are becoming undisguised with every passing day and, on this basis, reclarified our Party's stand and line on struggling against the revival of Japanese militarism while fighting against U.S. imperialism.

Comrade Kim Il Sung, the great Leader of our Party and people, set forth in his report to the Fifth Party Congress the programmatic tasks of continuously consolidating and developing our Party, the militant General Staff of the Korean revolution, organizationally and ideologically and further uplifting its militant power and leading function to meet the requirements of our revolution and construction which have entered a new stage of development.

In the report the Leader gave a comprehensive answer to the important problems of principle arising in the realm of Party building and its work such as the organizational and ideological consolidation of the Party ranks, organizational and ideological work of the Party, mass leadership, Party guidance of revolution and construction, and thereby developed creatively the Marxist-Leninist theory of Party building and showed the clear-cut way of developing in depth our Party work still more.

The respected and beloved Leader Comrade Kim Il Sung taught as follows in his report:

"We should continue to deepen and develop Party work, firmly carrying on, as our general task, the work of establishing the unitary ideological system more thoroughly in the Party, with the Marxist-Leninist ideology, the *Juche* idea of our Party, as an unshakable guiding ideology, and of strengthening, on this basis, the identity of ideology and will of the Party ranks."

It is a fundamental principle of the Marxist-Leninist Party building to firmly establish the unitary ideological system in the whole Party and, on this basis, strengthen the unity and cohesion of the Party ranks, and a decisive guarantee for all victories in the revolution and construction. This is a valuable conclusion drawn from the experiences summed up in the long-drawn out revolutionary struggle we have waged under the guidance of the Leader.

The report delivered by the great Leader Comrade Kim Il Sung to the historic Fifth Congress of the Party rouses the whole Party and the entire people to the grandiose struggle for victory of our revolution, for a fresh, greater victory of the cause of socialism and communism.

The struggle for materialization of this new, magnificent programme is a worthwhile struggle for further solidifying the socialist system in the northern half of the Republic and making an epochal advance in our people's endeavours to win the complete victory of socialism; it is a sacred struggle to make our revolutionary base more impregnable and bring a decisive phase in acceleration of the unification of the country and nation-wide victory of the revolution. At the same time, it is a glorious struggle for further strengthening the international solidarity of our revolution and developing the general international revolutionary movement more forcefully.

We will wage more staunch struggle, rallied close around the great Leader of the 40 million Korean people Comrade Kim Il Sung, the peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements and upholding the new, great programme of struggle mapped out by him, and thus will certainly carry out with credit the glorious militant tasks assigned to the present generation.

The fatherly Leader Comrade Kim Il Sung who holds so dear and loves us revolutionaries forcing our way through the storm of revolution and who is so much concerned about the brethren in South Korea languishing in adversity laden with thousands upon thousands of evils that he can hardly fall into a slumber!

First of all, I cordially offer the greatest honour and the warmest congratulations and greetings, carrying the unanimous feelings of loyalty of the entire members of the Revolutionary Party for Reunification and the South Korean people, to Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, the peerless patriot and the outstanding Leader of the revolution, who, personally standing in the van of the Korean revolution for a long period of nearly half a century ever since he had opened up a new, resplendent era in this land with 5,000-year-long history, defeated the robbers Japanese imperialists and accomplished the restoration of the fatherland, founded the invincible Workers' Party of Korea on the rock-firm basis of the brilliant revolutionary traditions and built the great "cradleland of *Juche*" and who have brightly lighted up the path ahead of the South Korean revolution and national unification.

The speaker, on behalf of the Central Committee of the Revolutionary Party for Reunification, conveyed the warm militant greetings to all the delegates to the Party Congress, to the entire members of the Workers' Party of Korea and brothers and sisters in the northern half of the Republic who have supported and encouraged in every possible way the South Korean people in their anti-U.S. imperialist, national-salvation struggle of resistance.

He then continued:

The historic report delivered by the great Leader Comrade Kim Il Sung to the Party Congress is the great Marxist-Leninist classic of the present times which is to expedite the complete victory of socialism and materialization of the ideal of communism in Korea; it gives another all-conquering, unique weapon to the armory of the South Korean revolution and serves as a bright beacon-fire that sheds light on the road to be followed by the Revolutionary Party for Reunification. And it is motive power of the history which powerfully turns the wheel of revolution, crushing the U.S. imperialists, the most ferocious enemy of mankind, and all the reactionary forces as well.

The speaker highly praised the miraculous successes and achievements the Workers' Party of Korea had made under the seasoned leadership of the great Leader Comrade Kim Il Sung during the period under review, and extended the warmest felicitations to the Workers' Party of Korea.

Referring to the great stride made by the revolutionary movement in South Korea in the 1960's, the speaker stated:

The fresh changes that have taken place in the revolutionary movement of South Korea in those years find their expression in the fact that the old amateurish character of decentralization had been boldly overcome in the building of an underground party and there came into being a unified Marxist-Leninist Party, that the broad sections of patriotic democratic forces had grown in scope and strength in the teeth of the unprecedented fascist repression and that the spontaneous process had been surmounted in the mass movement and it assumed the nature of purposefulness and organization to a marked extent.

Such ever-triumphant advance and fresh turn are entirely ascribable to the fact that the great *Juche* idea of Comrade Kim Il Sung, the genius Leader of the revolution, and his pre-eminent strategic and tactical lines have found their embodiment in the practical course of the revolutionary movement in South Korea.

Pointing to the fact that the revolutionary movement in South Korea had traversed the path marked by turns and twists because it had had not a genuinely revolutionary party guided by the great *Juche* idea of the brilliant Leader Comrade Kim Il Sung in the past, the speaker quoted the following teaching of Comrade Kim Il Sung:

"Since there was no revolutionary party and no clear-cut programme of struggle, and consequently the workers and peasants, the basic masses, failed to take part extensively in the resistance, the April Popular Uprising could not be carried out thoroughly in an organized way, and the people in South Korea were inevitably robbed by other stooges of the U.S. imperialists of the gains they had paid for with their own blood. It was also because leadership by a revolutionary party was lacking and the masses of workers, peasants and soldiers were not awakened that the people in South Korea failed to prevent the seizure of power by fascist elements in the upper strata of the army and failed to organize an effective counter-attack against the enemy's onslaught on democratic rights."

The speaker continued:

Basing themselves firmly on the correct line of Party creation mapped out by the respected and beloved Leader Comrade Kim Il Sung and on the experiences accumulated in Party building in the days of the anti-Japanese armed struggle, the South Korean revolutionaries pushed ahead energetically with the work of building an underground revolutionary party in defiance of all difficulties and successfully laid down the organizational and ideological groundwork and mass foundations of a party in a comparatively short period of time.

Dwelling on the fact that the South Korean revolutionaries, true to the teachings of the Leader, studied and grasped his great *Juche* idea, the unitary guiding idea of the Party, before anything else and struggled to propagate and disseminate it among the people, the speaker said:

As the *Juche* idea of the great Leader Comrade Kim Il Sung was brought home to the masses in South Korea on a broader scale, the process of imparting consciousness to the masses and lending themselves to organization was stepped up rapidly, the mass foundations of the Party were expanded and the ranks of the revolutionaries infinitely loyal to the Leader brought up from among them.

In judging the revolutionary comrades we took their boundless loyalty to the Leader for an absolute basis and brought up the nuclear members of leadership who established the revolutionary world outlook based on the *Juche* idea and were possessed of the art of strategic and tactical leadership and thus formed the organizational backbone of a party.

The speaker pointed out that on the basis of such preparations the local organizations of the Revolutionary Party for Reunification were formed in March 1964 and were rapidly developed into the steel-like ranks in the flames of the heroic March 24, 1964 resistance and ensuing mass struggles and, in the long run, the Party Central Committee was organized with the fighters immensely loyal to the Leader in April last year and the Party's Manifesto and Programme based on the great *Juche* idea of Comrade Kim Il Sung were issued.

He continued:

This is the great victory for the brilliant line of forming a party and the line of building an underground party, laid down by the respected and beloved Leader Comrade Kim Il Sung, the genius of the revolution and the sun of the nation, and it is a result of the fruitful struggle the South Korean Communists have waged day and night for the building of a revolutionary Marxist-Leninist party in South Korea, upholding the Leader's instructions.

The Revolutionary Party for Reunification of ours is the unified Marxist-Leninist Party in South Korea which is solely guided by the great revolutionary ideas of Comrade Kim Il Sung, the creative Marxism-Leninism of the present age, and which has inherited the glorious revolutionary traditions of the anti-Japanese armed struggle established by him and it is a real leading force which defends the interests of the broad masses of the people including workers and peasants and leads the national-liberation struggle and the people's democratic revolution on to victory.

The speaker emphasized that the emergence of the Revolutionary Party for Reunification, the integral Marxist-Leninist Party, and fresh development of the popular movement in South Korea are wholly attributable to the great *Juche* idea of Comrade Kim Il Sung, the sun of the 40 million Korean people and genius Leader of the revolution, and to his pre-eminent guidance, and referred to the fact that immediately after the liberation on August 15, 1945 Comrade Kim Il Sung had already made clear the line of establishing the revolutionary base which would serve as the decisive guarantee for national unification and nation-wide victory of the revolution, and that he had elucidated the original line on the South Korean revolution and laid down in concrete terms the most perspicuous strategic line at each stage of developments of the situation.

The speaker went on:

Through their own experiences and the historical facts the South Korean revolutionaries and people came to have the rock-firm conviction that to think and act in accordance with the lines and policies of the great Leader Comrade Kim Il Sung is the only way to victory.

The 1960's was the decade of bitter trials when the revolutionary movement in South Korea was confronted with the unparalleled, many-fold difficulties due to the unheard-of fascist repression by the enemies at home and abroad and to the virus of opportunism of all hues but the South Korean revolutionaries have made a vigorous advance in defiance of the savage fascist repression all along the road to victory of the revolution indicated by the Leader, not being sunken into the bog of opportunism, simply because the great *Juche* idea of the sagacious Leader Comrade Kim Il Sung lighted up the path lying ahead of them and because they were under the correct guidance of the brilliant Leader, the speaker said and continued:

Particularly, what touched the heartstrings of the South Korean revolutionaries and people and left a deep, never-to-be-forgotten impression upon them in the course of the grandiose march led in person by the Leader was the determined step and resolute stand taken by the iron-willed brilliant commander Comrade Kim Il Sung, who had meted out the punishment to the U.S. imperialists' armed spy ship "Pueblo" and got the aggressor lick the dust, to their great joy.

The speaker then underlined that particularly surging up in their hearts at that time were the feeling of unbounded happiness and proud honour of having fought on under the guidance of our Leader Comrade Kim Il Sung, the military strategist-genius and ever-victorious iron-willed brilliant commander, the legitimate national dignity and ever-mounting revolutionary pride imbued by the great Leader.

Indeed, for the South Korean revolutionaries and people the respected and beloved Leader Comrade Kim Il Sung is the lodestar of freedom and liberation and the only centre of unity and cohesion, and the great *Juche* idea initiated by him serves as the radiant beacon-fire for the South Korean revolution and as the source of its unbreakable strength.

Head of the delegation of the Revolutionary Party for Reunification said that the revolutionaries, workers, peasants, student youths and all the patriotic people in South Korea, looking up to the Leader, gain strength and courage from him and fight on for him at the risk of their lives. He added that growing as the days go by among the South Korean people are the ardent feelings of reverence for Comrade Kim Il Sung, the fatherly Leader of the 40 million Korean people.

It is a common occurrence and an irresistible popular trend, the speaker pointed out, that people in all parts of the southern land sing the "Song of General Kim Il Sung" and loudly shout "Long live General Kim Il Sung!" These days the story about "a

ed before the Leader, the speakers renewed their resolution to display again to the full the heroic spirit of Chollima Korea in implementing the grand programme of the Six-Year Plan which offers fresh, great prospects.

They pointed to proud victories won in our socialist rural construction along the bright path illumined by the "Theses on the Socialist Rural Question in Our Country," the brilliant work of the great Leader of revolution Comrade Kim Il Sung.

The speakers pointed to the fact that under the wise guidance of the respected and beloved Leader Comrade Kim Il Sung our Party achieved great results in carrying on the cultural revolution, too.

All speakers emphasized that great successes and achievements gained by our Party during the period under review are a brilliant fruition of the great *Juche* idea of the Leader and they are attributable to his wise guidance, and extended with deep reverence, amid the thunderous ovation of the entire attendants of the Congress who stood up, the highest honour and deepest gratitude to Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people and one of the outstanding leaders of the international communist and working-class movements who always leads our people to victory and glory, happiness and prosperity and makes a great contribution to the development of the world revolutionary movement, and wished him a long life in good health.

The Congress pointed out with satisfaction that the Red workers of the Chollima Komdok Mine where the unitary ideological system of the Party has been firmly established and the revolutionary traits of implementing unconditionally the instructions of the Leader to the end prevail, carried out their Seven-Year Plan assignments for ore production two years ahead of schedule and fulfilled with credit their plan for this year before the Fifth Congress of the Party by making continuous innovation and uninterrupted advance in accordance with the programmatic tasks put forth by the respected and beloved Leader Comrade Kim Il Sung at the Fourth Congress of the Party.

On November 4 at the proposal of the respected and beloved Leader Comrade Kim Il Sung, the Congress unanimously decided to send a telegram of thanks in its name to the Party members, workers, technicians and office employees of the Chollima Komdok Mine and their families who had brilliantly performed the tasks given by the Party.

The November 5 session of the Congress heard informations on the proud results our heroic working class and the entire working people attained in all the domains of production and construction by unrolling a vigorous labour struggle to greet the Fifth Party Congress with a high degree of political enthusiasm and labour feats, upholding the teaching of the respected and beloved Leader Comrade Kim Il Sung.

Upon the initiative of the respected and beloved Leader Comrade Kim Il Sung, that day the Congress decided with unanimity to send congratulatory telegrams in its name to all the factories and enterprises which, upholding the Party's lines, displayed unparalleled revolutionary ardors and collective heroism in fulfilling or overfulfilling this year's plan before the Party Congress and the working people who built new local industry factories with credit.

At the morning sitting of November 3 a congratulatory group of the Korean Young Pioneers entered the assembly hall to greet the Fifth Congress of the Party amid the applause shaking it.

There was a burst of stormy applause and cheers at the hall as Young Pioneers mounted the platform and presented a basket of flowers to Marshal Kim Il Sung, the great Leader of the 40 million Korean people and the benevolent father of the children of our country and put a red neckerchief around his neck.

Resounding applause and cheers again rocked the assembly hall when the congratulatory group of the Young Pioneers shouted loudly "Long live Marshal Kim Il Sung, the great Leader of the 40 million Korean people and benevolent father of us Young Pioneers!"

At the afternoon sitting, a congratulatory group of Red Young

Congratulatory Speech by Comrade Choe Yong Gun,

Head of the Congratulatory Group of the Korean Residents in Japan

In the beginning of his congratulatory speech Comrade Choe Yong Gun, head of the congratulatory group of Koreans in Japan, offered, in the name of the General Association of Korean Residents in Japan (Chongryon) and in the name of the 600,000 Korean nationals in Japan, the greatest honour and gratitude to the respected and beloved Leader of the 40 million Korean people Marshal Kim Il Sung, the founder and Leader of the glorious Workers' Party of Korea which is the organizer and inspirer of all the victories for the Korean people and the great sun of the nation who enjoys the irresistible adoration from the overseas fellow countrymen. The speaker then extended, through the Congress, warm congratulations and greetings to the entire membership of the Workers' Party of Korea and the people in the homeland who have made the world-startling wonderful achievements in the revolution and construction, following the wise guidance of the great Leader.

Contrasting the brilliant realities of the northern half of the DPRK, which has changed into the most advanced, developed socialist industrial state with the powerful independent national economy, the impregnable all-people defence system and the brilliant national culture, with the miserable realities of South Korea—a land of darkness—which has turned into a complete colony of the U.S. imperialists and their military base for aggression, Comrade Choe Yong Gun declared as follows:

"It is perfectly natural that the Korean nationals in Japan should entrust all their destinies entirely to the glorious socialist fatherland led by the great Leader Marshal Kim Il Sung and should feel deep in their hearts the great honour of being the citizens of the Democratic People's Republic of Korea. We realized this all the more clearly when we witnessed for ourselves the wonderful realities of the fatherland where the great changes have taken place, and the great national pride of having such a great fatherland rendered it very hard for us to keep back the emotion and joy surging in our hearts.

The resplendent realities of the fatherland which are to be seen for the first time in the long history of our country are a glaring demonstration of the indestructible vitality of the great *Juche* idea of the outstanding Leader Marshal Kim Il Sung, the heart and brain of the Korean revolution, who has all along led the Korean people only to victory and glory, happiness and prosperity, personally making his way steadfastly through all storm and stress with the destinies of the fatherland and the nation on his shoulder over the long period of 40-odd years.

Pointing out that the movement of the Korean nationals in Japan has traversed the proud path of victory and glory, struggle and advance, under the banner of the *Juche* idea, the great revolutionary idea of the brilliant Leader of revolution Marshal Kim Il Sung, the great thinker and genius of mankind, the speaker stressed that the most valuable success scored by the Korean nationals in Japan in the past nine years since the Fourth Congress of the Party is, first of all, that the unitary ideological system of the great Leader Marshal Kim Il Sung has been thoroughly established among all the functionaries of the Chongryon and the Koreans in Japan and *Juche*, in their movement.

He continued:

On the high rostrum of this meaningful Congress I affirm solemnly that the entire functionaries of the Chongryon and all the compatriots in Japan armed firmly with the all-conquering *Juche* idea of the great Leader Marshal Kim Il Sung and welded together closely around him are filled with the burning determination to remain singleheartedly loyal to the Leader without the slightest vacillation in any adversity.

As a result of the thorough establishment of *Juche* in the movement of the Korean nationals in Japan, the Chongryon has now grown and developed into an authoritative organization of the overseas citizens of the Democratic People's Republic of Korea, which is pervaded throughout with the Leader's revolutionary ideology and which has the honour of being the inheritor of the glorious revolutionary traditions of the anti-Japanese armed struggle personally built up by the Leader, into a powerful organization which represents the will, rights and interests of the 600,000 Korean nationals in Japan, and the Koreans in Japan have attained splendid achievements in their just struggle for the defence of their democratic, national rights.

We have reliably defended the citizenship of the glorious Democratic People's Republic of Korea, holding aloft the great banner of the *Juche* idea and determinedly frustrating the plots of the U.S. imperialist-manipulated reactionary government of Japan and Pak Jung Hi puppet clique to impose the puppet "ROK nationality" on us, have firmly upheld our human rights and the right to live and steadily developed the national education of our younger generation.

There is an organization of the Chongryon and the national flag of the DPRK is flying high in the sky over any part of Japan where our compatriots live, stretching from Kyushu and Tsushima in the south up to Hokkaido in the northern tip. And all the fellow countrymen in Japan, who lived a hopeless life in the past having lost the fatherland and the nation, have now portraits of Marshal Kim Il Sung respectfully hung on walls of all their houses, learn hard from their socialist fatherland and lead happy, worthwhile life with high pride of being the citizens of the DPRK. What a great pride it is!

The speaker referred to the fact that the well-arranged system of national education ranging from kindergarten to university has been established even in the difficult conditions in the alien land, that the rising generation have been educated and trained into national cadres boundlessly loyal to the Leader at 155 regular schools and many other educational institutions, that the newspaper **Choson Sinbo** and 33 other periodicals have been published and that a large number of cultural and art organizations have been operating to bring the "golden art" of Korea into bloom.

Pointing out that great successes have been scored in the struggle for the promotion of national unification and in the external activities for cementing the international solidarity with the peoples of various countries in the world, the head of the congratulatory group stated that, particularly, the brilliant works of the great Leader Marshal Kim Il Sung and the history of his glorious revolutionary activities have been widely propagated to produce great repercussions.

Then he referred to the struggle for overcoming flunkeyism and national nihilism and establishing *Juche* in the movement of Korean nationals in Japan.

He said:

Marshal Kim Il Sung, the brilliant Leader of revolution, earnestly instructed that the Korean nationals in Japan, though living in the alien land, should fight for the Korean revolution and they should hold fast to the stand of *Juche* even in fighting in unity with the democratic forces of Japan, conduct the patriotic work for the unification and the prosperity and development of their own country as overseas citizens of the sovereign state.

The line on changing the policy, a line set forth by the respected and beloved Leader Marshal Kim Il Sung, was the wisest and the most correct original one which lit up the path ahead of the entire Korean nationals in Japan like a beacon and led them to the vigorous patriotic work for the country and the people.

The formation of the General Association of Korean Residents in Japan, an organization of overseas citizens of the DPRK, was precisely a brilliant embodiment of this original line and a great victory of the immortal *Juche* idea of Marshal Kim Il Sung, the brilliant Leader of revolution.

He dwelt upon the fact that the Chongryon, holding high the banner of the great *Juche* idea, unfolded a powerful struggle against unsound ideological tendencies of all shades contradictory to the revolutionary ideology of the Leader and vigorously carried on the ideological education work to equip the entire functionaries of the Chongryon and the compatriots in Japan with the great revolutionary ideology of the Leader and the glorious revolutionary traditions. All the victories and successes attained in the movement of Korean nationals in Japan, he stressed, owe to the sagacious leadership and profound solicitude of the respected and beloved Leader Marshal Kim Il Sung.

He quoted the teaching of the great Leader Marshal Kim Il Sung: **"The Government of the Democratic People's Republic of Korea regards it as its sacred duty to protect the 600,000 compatriots in Japan and all other overseas Korean citizens and defend their national rights."** And he spoke of the fact that the Leader shows care for every aspect of life of the Korean residents in Japan with the affection warmer than that of real parents.

The Leader, he pointed out, saw to it that the law of nationality of the DPRK was promulgated firmly to ensure the legal status of the Korean residents in Japan, opened up for them the way to return home and sent them a huge amount of money totalling over 9,717,900,000 yen (in Japanese currency) as educational aid funds and scholarships on 37 occasions from 1957 when the conditions of the country were very difficult. And he enabled a great number of Korean residents in Japan to become deputies to the DPRK Supreme People's Assembly and have the honourable titles of professor, associate professor, merited teacher, merited artist, merited actor and actress and merited sportsman of the DPRK and receive state decoration, the speaker noted.

Saying he does not know yet that there are overseas citizens in the world as happy as the Korean nationals in Japan who live and work enjoying the paternal affection and solicitude of the respected and beloved Leader Marshal Kim Il Sung, he stressed that Marshal Kim Il Sung is, indeed, the sun of the nation who has liberated the Korean residents in Japan from the destiny of statelessness and is the great Leader who has enabled them to enjoy the honour of being the proud citizens of the DPRK and the benefactor of resuscitation who has delivered them from the danger of ruin.

He said that the report made by the brilliant Leader of revolution Marshal Kim Il Sung at the current Congress is a great programme brilliantly illumining again the road to the nation-wide victory of the Korean revolution, a pre-eminent Marxist-Leninist classical document in our times and the guide to the work and life of the Korean residents in Japan. And he expressed the resolution of the functionaries of the Chongryon and the Korean nationals in Japan to fight on more vigorously in defence of their national, democratic rights and for the independent, peaceful unification of the country, whole-heartedly upholding this programmatic report.

He said that no matter how frantically the Japanese militarists and the Pak Jung Hi puppet clique may commit vicious acts of subversion and sabotage at the bidding of U.S. imperialism, there can be neither unsurmountable difficulties nor unconquerable fortress for the Koreans in Japan so long as they are armed with the ever-victorious, great revolutionary ideology of the respected and beloved Leader Marshal Kim Il Sung and enjoy his wise leadership. He went on:

In the future we will more thoroughly equip ourselves with the immortal idea of *Juche* of the great Leader Marshal Kim Il Sung and unite as firm as a rock around him and more firmly build up the Chongryon into an indestructible organization unshaken in face of all storms and tempests and display to the full our patriotic enthusiasm for the prosperity and development of the socialist fatherland.

In conclusion he wished from the bottom of his heart good health and a long life to Marshal Kim Il Sung, the great Leader of the 40 million Korean people, the peerless patriot, national hero and ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements, for the unification of the country, for the nation-wide victory of the Korean revolution, and for the happiness of the Korean people and the prosperity of the generations to come.

Working People Resolve to Creditably Implement Programmatic Tasks Set Forth by the Leader

The Leader's Report to the Historic Fifth Congress Produces Great Repercussions among Working People

Hearing the report to the Fifth Congress of the Workers' Party of Korea delivered by Comrade Kim Il Sung, the respected and beloved Leader of our Party and the 40 million Korean people, the workers of the Pyongyang Textile Mill are now enveloped in a great joy and emotion.

Greeting the historic Fifth Congress of our Party, the workers of the mill who dashed forward all along at the "speed of Kangson," a new speed of Chollima, and captured the textile height of the Seven-Year Plan with the immeasurable loyalty to the Leader, cordially offer the greatest honour and warmest thanks to the great Leader of the revolution Comrade Kim Il Sung who has opened up in this land a new age of the great national prosperity by founding the Workers' Party of Korea and leading our Party and the people straight to the victory, and they burn with the determination to dash on with vigor along the bright highway indicated by him.

Kim Gwan Su, chief engineer of the mill, said with overwhelming emotion:

The report of Comrade Kim Il Sung, the great Leader of the revolution, is the prominent Marxist-Leninist document that scientifically analyzed and summed up the overall victory of the great *Juche* idea of the Leader, the unitary idea of our Party, the proud course along which it was embodied in our revolution and construction and the resplendent feats performed and experiences accumulated by our Party and people under the guidance of the Leader. It is the programmatic document which brightly illumines the path of our struggle leading to the complete victory of socialism in the northern half of the Republic and the nation-wide victory of our revolution as well. At the same time, it is the classical document that makes a great contribution to the development of Marxism-Leninism and of the world revolutionary movement. The report constitutes an inspiring banner that greatly invigorates us Korean people and the revolutionary peoples of the world and gives them the confidence in victory.

Under the wise leadership of the great Leader Comrade Kim Il Sung our Party has made brilliant achievements during the period under review, which will shine long in history.

Along with the quick development of heavy industry, epochal headway has also been made in light industry. Our country has now all branches of light industry including the textile industry capable of turning out more than 400 million metres of best-quality fabrics a year, the foodstuffs processing industry and the daily necessaries industry, and there have been established up-to-date light industry bases which can meet on their own the demands of the working people for consumer goods ranging from fabrics to goods for cultural use.

Our mill, too, has scored a great success during the Seven-Year Plan period like all other factories in our country.

The workers of our mill, displaying the revolutionary spirit of self-reliance, manufactured machines and equipment by their own efforts to fill in the deficiencies in production processes and actively introduced the advanced technique and advanced method of work in production. Consequently, during the Seven-Year Plan period the output of high-grade fabrics increased ten times, the assortment of textiles including high-grade fabrics grew eight times. The dyeing process was improved and the process of treatment before and after fabrics being woven was further perfected, which led to the betterment of quality of fabrics.

Looking back on the proud success achieved by us in the past under the pre-eminent leadership of the great Leader Comrade Kim Il Sung, we textile workers feel our hearts thumping hard with the boundless pride in making revolution under the Leader's guidance and burning with intense loyalty to him.

In his report the respected and beloved Leader Comrade Kim Il Sung taught as follows:

"The basic task of the Six-Year Plan in the field of socialist economic construction is to further cement the material and technical foundations of socialism and free the working people from arduous labour in all fields of the national economy, by consolidating and carrying forward the successes gained in industrialization and advancing the technical revolution onto a new, higher plane."

We will arm ourselves firmly with the *Juche* idea, the great revolutionary idea of the Leader, and devote our all to the struggle for the successful implementation of the programmatic tasks set forth by him, the prospective Six-Year Plan which opens up a broad vista before us.

Kim Jong Sun, head of the twice Chollima workteam of the sixth weaving shop, whose workteam greeted the Fifth Congress of the mother Party, taking the pride in the fact that it overfulfilled this year's plan by 200 per cent, had this to say:

In his report to the Fifth Congress of our Party, the respected and beloved Leader Comrade Kim Il Sung laid down the three major tasks of the technical revolution to be carried out in the coming few years, and instructed as follows:

"One of the important tasks we should fulfil is to carry out a technical revolution to deliver women from the burdens of kitchen and household work."

I would like to proudly declare to the whole world that the happiest women are we Korean women who live, doing worthwhile work and studying, under the warm love and solicitude of the great Leader.

The weavers, working mothers, of our workteam are now resolved to race on at the "speed of Kangson," a new speed of Chollima, helping and pulling each other along, to live up with loyalty to the warm solicitude and deep trust shown by the Leader again this time, and thus fulfil the next year's plan far ahead of the set time and win the Prize of Honour of Chollima without fail before April 15.

The teachers and staff members of Kim Il Sung University which was honoured with the title of Chollima, now wrapped in unfathomable emotion and excitement, voiced their firm determination to deeply study the report of the respected and beloved Leader Comrade Kim Il Sung, fully grasp the great revolutionary ideas reflected in it and put into practice to the end the tasks set forth in it.

Teacher Kang Pal Gyong, assistant dean of the geological faculty, said that he could hardly keep back the surging emotion when he was informed of the wide vista opened up by the great Leader Comrade Kim Il Sung in his report, and continued:

The task of the cultural revolution presented itself as quite an important issue in our country which was a colonial, semi-feudal state in the past, and has been carried on successfully under the wise leadership of the Leader, with the result that considerable successes have been achieved in popular education, too.

During the period under review, the universal compulsory nine-year technical education was effected in our country, the number of universities and colleges increased from 78 to 129 and 376 higher technical schools were newly set up. Today more than 497,000 engineers, assistant engineers and specialists or 4.3 times as many as in 1960 are working in all domains of the national economy. And the government organs and economic organizations, scientific and cultural institutions, modern factories, enterprises and co-operative farms in our country are excellently managed by their talents and efforts.

Under the wise leadership of the Leader and his utmost care our Kim Il Sung University has developed into one of the best universities in the world in its scale and contents, into a palace of science and a powerful base where national cadres are trained.

In his report to the Fifth Party Congress, the Leader set forth the task to be fulfilled in the sphere of education — to build up a big contingent of technicians and specialists, a large army of intellectuals. He also opened up a new vista in this field: a large number of technicians and specialists are to be trained, so that the number of engineers, assistant engineers and specialists with college and higher technical education may account for more than 10 per cent in the make-up of labour at all factories, enterprises and co-operative farms during the period of the new prospective plan and that the number of technicians and specialists may exceed one million in the near future.

We, encouraged by the grand blueprint unfolded by the Leader, feel our hearts overbrimming with a sense of great honour and pride of being the Red educationists of the Party.

I am firmly resolved to deeply study the historic report, make my bones and flesh of the great revolutionary ideas of the great Leader Comrade Kim Il Sung contained in it so as to establish the unitary ideological system of the Party more thoroughly and embody with credit his revolutionary ideas in my teaching and educational work and thus discharge my duty as the Red educationist of the Leader.

Working People in Different Parts of the Country Raise Higher the Flames of Revolutionary Upsurge Upholding the Programmatic Report of the Leader

☆

Having heard with unbounded emotion the historic report delivered by the great Leader Comrade Kim Il Sung to the Fifth Congress of the Workers' Party of Korea, the glorious congress of victors, the entire working people of our country are now making unprecedented innovations on all fronts of socialist construction with a fresh resolve to thoroughly carry out the programmatic tasks set forth by him.

Red Workers of Chollima Komdok Mine Make New Records

The Red miners of the Chollima Komdok Mine splendidly fulfilled the Seven-Year Plan two years ahead of schedule and their production plan for this year in a little over nine months and greeted the Fifth Congress of our Party with a pride in being victors. They are now creating new unprecedented records one after another with a high degree of revolutionary enthusiasm to scale at a bound the eminence of the Six-Year Plan, a new long-range plan, boundlessly inspired by the programmatic report of the Leader which opened the great prospects for the victory of our revolution.

It was when the miners here were making world-startling miracles and innovations every hour at the underground cutting sites that they heard the happy news over radio, the news that the Fifth Party Congress in session unanimously decided to send in its name a telegram of thanks at the proposal of the great Leader Comrade Kim Il Sung, General Secretary of the Central Committee of our Party, to the Party members, workers, technicians, office employees and their families of the Chollima Komdok Mine who executed with credit the task assigned to them by the Party.

This news drew the whole mine into a vortex of joy and excitement again.

The miners here, deeply feeling great pride in living and working under the guidance of the great Leader Comrade Kim Il Sung who always leads our people along one road of victory, renewed their resolve to repay his deep trust and expectancy with loyalty by splendidly carrying out the programmatic tasks put forth by the Leader.

The respected and beloved Leader Comrade Kim Il Sung said in his report to the current Party Congress as follows:

"...We still have much work to do in the field of economic construction if we are to lay the solid material and technical foundations for socialism. We should equip industry better and further strengthen its independence and thus bring into full play the might of modern industry built in our country and develop the nation's productive forces still faster by bringing about steady technical progress in all fields of the national economy."

The Red workers of the Komdok Mine who always see the greatest honour and joy in carrying through to the end the teaching of the Leader are now raising higher the flames of innovation to actively contribute to further strengthening the independence of our industry and the economic and defence power of the country.

The miners here are now unfolding more vigorously than ever a high-speed tunnelling movement, i.e., a movement for tunnelling 250 metres a month per face and a drive for cutting and dressing ores on a large scale.

On the evening of the day when they heard the report of the Leader, the members of the Li Jin Su twice Chollima platoon rushed to the cutting site and unanimously made up their mind to fulfil their plan for the next year, the first year of the Six-Year Plan, by April 8, the tenth anniversary of Comrade Premier's on-the-spot guidance to their mine, and accomplish the Six-Year Plan assignment of their platoon in three years and rose as one to put their resolve into effect. They, handling two or three rock drills each, created a miracle of carrying out their quota at 685 per cent in their first shift.

That day the members of the Li Tae Guk Chollima platoon who had topped their plan for this year three times scored a production result of 1,100 per cent by more effectively using existing equipment. And the Kim Yong Su Chollima platoon overfulfilled their production plan by more than 400 per cent.

Innovations are taking place in succession at all other tunnelling and ore mining platoons and units of the mine.

All the housewives in the miners' settlement who received the telegram of thanks in the name of the Party Congress, through excess of joy, also rushed to the cutting sites to give a helping hand to their sons and husbands.

The Red workers of the Komdok Mine who accept the Leader's teaching unconditionally and carry it through to the end with a single-hearted devotion are bringing about great innovations in production in this way every day. On November 3 this mine overfulfilled its plan for tunnelling by 134 per cent, hewing preparations by 100 per cent and ore mining by 220 per cent.

Now the entire workers, technicians and office employees of this mine and their family members are working hard to turn out more ore in the Chollima spirit, in the "a-match-for-a-hundred" spirit, upholding the programmatic report of the respected and beloved Leader Comrade Kim Il Sung made at the Fifth Congress of our Party.

Chollima Rihyon Co-op Farmers Step Up Comprehensive Mechanization of Farming

The members of the Chollima Rihyon Co-operative Farm, immeasurably encouraged by the historic report delivered by the respected and beloved Leader Comrade Kim Il Sung to the Fifth Congress of the Workers' Party of Korea, have come out to carry through the programmatic tasks set forth by him and the whole farm is now boiling with yet greater revolutionary zeal.

They, indelibly writing on their hearts every phrase of the report of the Leader, impressively glanced back over the path of splendid victory travelled by them, the path of creation, miracles, changes and leaps, and made up their mind to vigorously fight on towards a fresh, greater victory.

Along the path charted by the "Theses on the Socialist Rural Question in Our Country" authored by the fatherly Leader Comrade Kim Il Sung, the technical, cultural and ideological revolutions have been energetically promoted on this farm as in other rural villages of our country. As a result, the material and technical foundations of agricultural production have been further consolidated, the face of the farm has changed beyond recognition and a radical change has been brought about in the spiritual and moral life of the people.

Agricultural production has increased and the life of the farmers improved every year.

The peasants of this farm greeted the Fifth Congress of our Party with their intense loyalty to the Leader—this year they gathered in more than six tons of rice per *chongbo* of paddy field, over four tons of grains per *chongbo* of dry field and a good harvest of vegetables from the fields where the water-jetting irrigation system has been introduced.

The great Leader Comrade Kim Il Sung said as follows:

"Promotion of the rural technical revolution is a very pressing task before us today. We should carry out the all-round mechanization and chemicalization of agriculture in the Six-Year Plan period to drastically narrow down the distinctions between agricultural, and industrial labour and save plenty of labour force in the countryside."

Picturing in their minds the bright morrow when comprehensive mechanization of agriculture is introduced in an all-round way with the powerful support of the socialist industrial state, the people of Rihyon-ri have all turned out and are now speeding up immediate farming operations vigorously. The fifth field team and many other teams have already finished threshing.

Tractor drivers are exceeding their daily assignments twice or thrice in autumn ploughing and land readjustment. This year the farm sowed directly rice in 30 *chongbo* of fields and has attained great results in mechanization and chemicalization.

Peasants and tractor drivers here resolved to introduce comprehensive mechanization in more fields in the coming year and are now actively pushing forward its preparations.

They also set themselves a militant task to complete comprehensive mechanization by mechanizing all loading and unloading operations the next year and making all the fields standardized ones within three years and are now striving to that end.

The members of the Rihyon Co-operative Farm who are enjoying a happy life under the direct care of the Leader are now redoubling their efforts to perform the enormous task he set in the report to the Party's Fifth Congress.

Statement of DPRK Foreign Ministry

No Matter What "Resolution" the U.S. Imperialists May Force the United Nations to Adopt without the Participation and Consent of the Genuine Representative of the Korean People and against the Interests of the Korean People, It Is of no Use at All and Entirely Null and Void

The Foreign Ministry of the Democratic People's Republic of Korea issued a statement on November 3 in connection with the fact that on October 30 last the U.S. imperialists forced through the Political Committee of the 25th Session of the United Nations General Assembly, as usual, a "resolution" on the so-called "conditional invitation" designed to prevent the representative of the Democratic People's Republic of Korea from participating in the discussion of the question on Korea.

Follows the full text of the statement:

On October 30 last the U.S. imperialists forced through the Political Committee of the 25th Session of the United Nations General Assembly, as usual, a "resolution" on the so-called "conditional invitation" designed to prevent the representative of the Democratic People's Republic of Korea from participating in the discussion of the question on Korea.

This is an act of infringement upon and insult to the sovereignty of the Korean people and of flagrant violation of the principles of the United Nations Charter.

The Government of the Democratic People's Republic of Korea resolutely condemns and rejects this illegal "resolution" framed up by the U.S. imperialists.

It goes without saying that as long as the question on Korea is discussed at the United Nations, the representative of the Democratic People's Republic of Korea, the party directly concerned, should participate in its discussion.

At the current Political Committee of the U.N. General Assembly, the socialist countries and many Asian and African countries rejected the "resolution" on the so-called "conditional invitation" put forth by the U.S. imperialists and strongly maintained that the representative of the Democratic People's Republic of Korea should be invited unconditionally to the discussion of the question on Korea. This is completely just.

To attach any sort of "condition" to inviting the party concerned to the discussion of its question at the United Nations is quite out of the question and is an illegal and shameful practice running counter to the United Nations Charter.

Moreover, the so-called "conditional invitation" raved by the U.S. imperialists implies that the Government of the Democratic People's Republic of Korea should accept in advance their justification through U.N. "resolutions" of the manoeuvres of their aggression army to occupy South Korea permanently, convert it into a colony and military base and use it as a stepping-stone to provoke a new war with a view to invading the whole of Korea.

This is precisely a burglarious demand laying bare fully the black-hearted ambition of the aggressors.

The U.S. imperialists continue to force the United Nations to attach such a criminal "condition" in an attempt to bar the representative of the Democratic People's Republic of Korea, the sole state of the Korean nation representing the genuine national interests and will of the entire Korean people, from participating in the discussion of the question on Korea at the U.N. and hinder the representatives of various countries from hearing the true voice of the Korean people so as to prevent their manoeuvrings of aggression and war perpetrated in Korea from being exposed.

By so doing the U.S. imperialists knavishly seek to impose once again upon the current Session of the U.N. General Assembly a "resolution" designed to justify under the U.N. flag the continued occupation of South Korea by their aggression army and the new war provocation manoeuvrings they are frantically committing against the Korean people.

As the Government of the Democratic People's Republic of Korea has already repeatedly stated, no matter what "resolution" the U.S. imperialists may force the United Nations to adopt without the participation and consent of the genuine representative of the Korean people and against the interests of the Korean people, it is of no use at all and entirely null and void.

If the United Nations really wants to act in conformity with the principles and objectives of its Charter it must categorically reject the manoeuvrings of the U.S. imperialists who are using the United Nations as a tool in carrying out their aggressive policy against Korea and take without delay measures for the withdrawal of the U.S. imperialist aggression army occupying South Korea under the signboard of the "U.N. forces" and the dissolution of the "United Nations Commission for the Unification and Rehabilitation of Korea," which is the U.S. imperialists' instrument of aggression.

grand national jubilee should be held in the presence of General Kim Il Sung in Seoul on his 60th birthday" is widely spread among Seoul citizens and this touches the hearts of all people boundlessly.

He quoted the teaching of Comrade Kim Il Sung that **"The Communists of South Korea also should make it a principle to organize a party and build up the leading core by themselves and carry on the revolution on their own strength"** and stressed that in carrying the South Korean revolution through to completion the leading part should be played by the South Korean people who are subjected to national oppression and class exploitation and have more vital interests in this revolution than anyone else.

Pointing to the facts that due to the occupation of South Korea by U.S. imperialism for 25 years South Korea has been converted into its complete colony, into its military base from which to invade the whole of Korea and Asia and that U.S. imperialism is now drawing even the Japanese militarist forces into South Korea, he said that South Korea has literally been reduced to a "living hell on earth."

Today in South Korea where national tragedy and social inequality have reached the extreme and national and class contradictions have become intensified and which has been turned into a big powder keg of revolution, the explosion in the revolution is inevitable and the life and death struggle between the enemy and us is placed on the order of the day, he noted. The Revolutionary Party for Reunification, the speaker said, will put a fuse to this powder keg and throw the enemies of the people into fire and lead the revolution to victory without fail.

Saying that the respected and beloved Leader in his historic report to the current Congress summed up the historic experiences of the South Korean revolutionary movement and set forth again the clear-cut fighting programme before the South Korean revolutionaries and people, he quoted the following teaching of Comrade Kim Il Sung:

"...It is necessary to build up revolutionary forces so as to crush counter-revolutionary violence by revolutionary violence and counter violence always with violence."

Singleheartedly following the fighting programme advanced by the brilliant Leader of the revolution Comrade Kim Il Sung, the South Korean revolutionaries will further strengthen the Revolutionary Party for Reunification through their active struggle and closely rally the workers and peasants under its banner and build up the powerful main force of revolution; strengthen the anti-U.S. imperialist, national-salvation united front in firm unity with broad patriotic forces.

Then the speaker said: The Revolutionary Party for Reunification, upholding the line of struggle in the present strategic stage clarified by Comrade Kim Il Sung, will unfold various forms of dynamic struggle to topple the military fascist "regime" of Pak Jung Hi, the most vicious executor of the colonial fascist rule, and win democratic freedoms and rights and develop this struggle into a decisive struggle to win power and when the situation is ripe they will demolish the bulwark of the U.S. imperialist colonial rule by powerful revolutionary violence, win the final victory of revolution and establish a genuine people's power.

The South Korean revolution is arduous but as long as there are the wise leadership of the great Leader Comrade Kim Il Sung, the decisive guarantee for victory in the revolution, the active support from the powerful revolutionary base set up by him and the internationalist support from hundreds of millions of people on five continents, the prospect of the South Korean revolution is optimistic and victory is sure to come.

On behalf of the Revolutionary Party for Reunification, he made a solemn pledge that by carrying out the programmatic tasks given by the great Leader Comrade Kim Il Sung at this Congress without fail, the South Korean revolutionaries and people will accomplish the revolution in South Korea before long and present a report of glorious victory to the fatherly Leader.

In conclusion, he, conveying the supreme desire of the comrades-in-arms and the unanimous ardent aspiration of the entire people in the southern half, wished sincerely for Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, the great sun of our nation, one of the outstanding leaders of the international communist movement and the world revolution, prominent thinker, strategist-genius and peerless hero, that he would enjoy long life and good health for the victory of the people's democratic revolution in South Korea, the independent unification of the fatherland and the eternal prosperity of the entire Korean people.

Fervent Felicitations to 17th Anniv. of Cambodia's Independence

November 9 this year marks the 17th anniversary of the independence of the Kingdom of Cambodia.

Cambodia's independence was a shining victory won by the people of this country in their protracted, valiant struggle against foreign invaders and represented a milestone which marked a new page in the history of the Cambodian people.

On this occasion, the Korean people send fervent felicitations and militant greetings to the Cambodian people who are courageously fighting, holding high the banner of anti-U.S. imperialism and national salvation, to smash U.S. imperialism and the Lon Nol clique and build a new, independent, prosperous Cambodia.

Since independence the Cambodian people under the leadership of Head of State of Cambodia Samdech Norodom Sihanouk have resolutely defended Cambodia's independence, peace and neutrality against the unending aggressions and subversions of the U.S. imperialists and their lackeys and attained many successes in their struggle for developing the national economy and national culture, holding aloft the banner of anti-imperialism and independence.

The Cambodian people have actively supported and encouraged Asian, African and Latin American peoples in their struggle against imperialism and colonialism, particularly the Vietnamese and Laotian peoples in their struggle against the U.S. imperialist aggressors and for national salvation.

The U.S. imperialists, who had regarded independent, peace-loving and neutral Cambodia as a thorn in the flesh, instigated the traitorous Lon Nol-Sirik Matak clique in March this year to stage a reactionary military coup and launched a brigandish armed aggression against the Cambodian people. Today, the U.S. imperialist aggressors are stepping up brutal air raids on Cambodia with their air pirates and expanding the barbarous war of genocide against the Cambodian people, bringing in a large number of South Vietnamese and Thai mercenaries. This is spelling intolerable misfortunes and disasters to the people of this country.

With no amount of outrages, however, can the U.S. imperialists and their stooges frighten or subdue the Cambodian people who have risen in the just war of resistance for their country's independence and their freedom.

The patriotic people of Cambodia are conducting valorously a sacred struggle against the brigandish invasion of the U.S. imperialists and against their stooges in enthusiastic response to the March 23 appeal of Samdech Norodom Sihanouk, Head of State.

In the flames of the fierce war of resistance against the piratical armed invasion by the U.S. imperialists, came into being the National United Front of Kampuchea and the Royal Government of National Union of Cambodia under its leadership, the sole, legitimate, genuine, patriotic government of the Cambodian people.

This was an event of historic importance in the development of the Cambodian people's anti-U.S. imperialist, national-salvation war of resistance and an expression of their firm determination to fight out to the better end the U.S. imperialists and their stooges, inheriting and developing the long-standing traditions of anti-imperialist struggle.

The Royal Government of National Union under the leadership of the National United Front of Kampuchea is the sole legitimate government of Cambodia which enjoys the unreserved support and trust of the Cambodian people. It has received the recognition from the socialist countries including our country and other progressive countries and its international position is enhancing with each passing day. Upset by this, the U.S. imperialists have recently egged on the Lon Nol-Sirik Matak puppet clique, the inveterate enemy of the Cambodian people, to stage a farce of proclaiming the so-called "republic" which is entirely illegal and unpopular and which no one would recognize. With whatever cunning moves cannot the U.S. imperialists cover up the reactionary nature of the Lon Nol-Sirik Matak puppet clique.

Now, the patriotic people of Cambodia, firmly rallied around the National United Front of Kampuchea, are unfolding the anti-U.S. imperialist, national-salvation struggle more vigorously, dealing telling blows to the U.S. imperialists and the Lon Nol puppet clique. They have liberated more than two-thirds of the territory of Cambodia inhabited by millions of people, and are consolidating the liberated areas politically, economically and militarily, taking a number of popular measures.

The Korean people highly appraise the steps taken by the Cambodian people to crush the U.S. imperialist aggressors and their stooges, and their indomitable spirit to fight imperialism and U.S. imperialism and rejoice as in their own in the brilliant successes achieved by the Cambodian people and National Liberation Army in their struggle.

The Korean and Cambodian peoples have closely united and assisted each other in their struggle against the common enemy.

Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, said as follows:

"I once again solemnly declare that the Government of the Democratic People's Republic of Korea and the entire Korean people will, in the future, too, actively support by all necessary means the fraternal Cambodian people in their righteous anti-U.S. imperialist, national-salvation war of resistance against the U.S. imperialist aggressors, the common enemy, till they win a final victory in the war."

The Korean people are firmly convinced that the Cambodian people guided by Samdech Norodom Sihanouk will win the ultimate victory in their just anti-U.S. imperialist, national-salvation war of resistance in close unity with the Vietnamese and Laotian peoples and with the active support of the revolutionary people of the world.

The day is sure to come when the heroic Cambodian people will force the U.S. imperialists out of their fatherland and build a new, anti-imperialist, independent, prosperous Cambodia with Samdech Norodom Sihanouk as Head of State.
